

BottleZap

Zap away your empty bottles

Zap away your empty bottles

BottleZap infoline
1300 500 055

BottleZap will revolutionise your bar operation by:

COST SAVING

Our single action, on-the-spot bottle disposal system saves on labour costs and allows staff more time for serving customers.

SPACE SAVING

BottleZap's sleek, compact design means it sits unobtrusively into the bar area. Best of all, this glass-crushing dynamo will put an end to the storage problems associated with bins and bins of empty bottles!

NOISE REDUCTION

The noise of clunking bottles is a constant irritation to close neighbours of restaurants, pubs and clubs. Be kind to your neighbours and get rid of the clunk! The BottleZap is amazingly quiet during operation and spells an end to the sound of bottles being moved from the bar to the yard ... from the yard to the waste bin ... from the waste bin to the truck.

Finance options

BottleZap can be purchased up-front or financed on low weekly payments.

Safety compliance

Meets requirements of AS4024.1 - Certificate of Suitability No.8981

Manual handling

Comes with a purpose-built trolley for easy movement of crushed glass.
