

SPEED CHECK-15

**Speed Advisory Sign:
Compact, Low-cost solution for curbing speed**

Features & Benefits

- ✓ Mobile App IOS & Android
- ✓ Records and flashes the speed a driver is travelling at, then switches to “Slow Down” if the driver has exceeded the speed limit.
- ✓ Programmable smart technology recognises varying time zone speeds, including school holidays.
- ✓ Standard Bluetooth connection and operation.
- ✓ Solar powered, battery or mains; large selection of programming options.
- ✓ Stealth Mode
- ✓ High Speed Cut Off
- ✓ Calendar/Schedule Operation
- ✓ Data Collection with Visualisation & Reporting Software

Fully Compliant, Ultra-clear Display

Compliant to standards for legibility, including LED color, character and letter height. The bright LED display uses 15-inch digits against a background designed for high-contrast visibility that prevents “88” ghosting— ensuring readability in all weather and lighting conditions. The unique safety mask limits the viewing angle to prevent drivers from watching the display as they pass.

Long-lasting, Reliable Operation

The LED display is housed within a durable, weatherproof aluminum unit and is shielded with a tough polycarbonate window for added vandalism protection.

Easy Installation and Connectivity

The SpeedCheck® sign arrives ready to work out of the box. Bluetooth® allows for quick connectivity and setup via the SpeedCheck Manager mobile app or PC software.
